SHREE RAM KUMAR

Associate Product Manager | Business Analyst | Data & AI Product Specialist

+91 9525108773 | shreeramkumar.ktr@gmail.com | Lucknow, Uttar Pradesh, India

PROFESSIONAL SUMMARY

Results-driven Associate Product Manager with 4+ years of experience in product management, business analysis, AI-driven solutions, and data analytics across recruitment, resource management, education, and fintech domains. Experienced in driving end-to-end product lifecycle management, requirement engineering, stakeholder collaboration, Agile delivery, and KPI-driven decision-making. Skilled at translating business problems into scalable digital solutions through product strategy, process optimization, data insights, and user-centric design. Proven expertise in creating PRDs, BRDs, user stories, workflow diagrams, dashboards, and AI-powered product experiences while collaborating with engineering, QA, design, PMO, and business stakeholders.

CORE COMPETENCIES

Product & Business Analysis

- Product Management
- Stakeholder & Client Management
- KPI & Performance Analysis
- Requirement Gathering & Gap Analysis
- Workflow & Process Optimization
- Cross-functional Collaboration
- Product Documentation (PRD, BRD, FRD)
- Risk & Impact Analysis
- UAT Coordination & Defect Tracking
- User Stories & Acceptance Criteria
- User-Centric Product Thinking
- Agile & Sprint Planning
- Product Road mapping

AI & Data Expertise

- AI Product Solutions
- Knowledge Base Systems
- Dashboard Development
- Conversational AI Platforms
- Data Visualization & Reporting
- Business Intelligence & Analytics

Technical Skills

- Python
- Jira
- Visual Studio Code
- SQL
- Figma
- MS Office Suite
- PostgreSQL / MySQL
- Microsoft Visio
- Microsoft Power BI
- Microsoft SharePoint

PROFESSIONAL EXPERIENCE

Cardinal Integrated Technologies Inc.

Aug 2022 – Present

Associate Product Manager / Business Analyst

Project: Karmik – Recruitment Management Platform

Role: Associate Product Manager **Tech Stack:** Jira, SharePoint, Figma, Visio, Power BI, MS Office

- Led requirement gathering, feature analysis, and product documentation for an end-to-end recruitment management platform.
- Created PRDs, BRDs, workflows, user stories, use cases, and acceptance criteria for multiple recruitment modules.
- Collaborated with recruitment teams, PMO, developers, and QA to align product capabilities with business objectives.

- Designed process workflows and optimized recruitment lifecycle operations from job posting to onboarding.
- Coordinated sprint planning, UAT cycles, release validation, and defect management activities.
- Built dashboards and KPI reports to improve recruiter productivity, hiring efficiency, and operational visibility.
- Participated in feature conceptualization for AI-enabled recruitment workflows and automation capabilities.
- Supported release planning, stakeholder demos, and feature rollout communication.

Project: *Karmik is an enterprise recruitment and talent acquisition platform streamlining the complete hiring lifecycle including requisition management, candidate sourcing, interview tracking, onboarding, reporting, and recruiter performance analytics.*

Project: Cogent AI – AI Knowledge & Chatbot Platform

Role: Associate Product Manager **Tech Stack:** AI Knowledge Base, Chatbot Integration, Figma, Jira, Power BI

- Contributed to product strategy and workflow design of an AI-powered enterprise knowledge assistant.
- Worked on AI chatbot use cases across HR, Sales, Support, and Product departments.
- Defined user flows, AI interaction journeys, and conversational experiences for client-specific chatbot implementations.
- Collaborated with development teams to build knowledge-base-driven AI solutions using document uploads and website scraping.
- Created product documentation, functional specifications, and implementation workflows for chatbot integration.
- Assisted in designing AI-driven lead conversion and support automation capabilities.
- Participated in UI/UX discussions for chatbot experiences and dashboard reporting.

Project: *Cogent AI is a customizable AI assistant platform enabling organizations to create domain-specific chatbots trained on internal documents and websites, accessible through conversational AI integrated into websites and collaboration platforms.*

Project: Shikshan – Digital Education Platform

Role: Product & Business Analyst

- Worked on product analysis and workflow planning for an education-focused digital platform.
- Gathered business requirements and translated them into scalable feature specifications.
- Designed student-centric and educator-centric user journeys for improved engagement and accessibility.
- Collaborated with stakeholders to improve usability, accessibility, and operational workflows.
- Contributed to reporting, analytics, and engagement-tracking concepts for the platform.

Project: *Shikshan is a digital learning and education management platform focused on improving accessibility, engagement, and structured learning experiences through technology-enabled workflows.*

Project: Resource Management System (RMS)

Role: Business System Analyst **Tech Stack:** Jira, SharePoint, Figma, Visio, Power BI

- Gathered and analyzed business and operational data to support strategic decision-making.
- Designed dashboards and reports for resource allocation, project tracking, and utilization analysis.
- Documented workflows and process improvement initiatives for PMO and management teams.
- Coordinated with stakeholders and development teams for requirement validation and solution delivery.

Project: *RMS is an organizational resource management platform for PMO and business teams to monitor projects, employees, client engagements, and operational performance through centralized dashboards and analytics.*

Project: Lending Micra – Micro Lending & Crowdfunding Platform

Role: Business Analyst

- Assisted in business process documentation and workflow analysis for a fintech platform.
- Contributed to user story creation, requirement analysis, and feature documentation.
- Supported reporting and visualization initiatives using BI tools.
- Collaborated with stakeholders to identify process improvement opportunities.

Project: *Lending Micra is a fintech and social-impact platform focused on micro-lending and crowdfunding for NGOs and underprivileged communities, enabling financial inclusion and donation management.*

EDUCATION

Bhagalpur College of Engineering *2019 – 2022*

Bachelor of Technology (B.Tech) – Computer Science & Engineering | **CGPA: 8.15**

Government Polytechnic Bhagalpur *2016 – 2019*

Diploma – Computer Science Engineering | **CGPA: 8.35**

ADDITIONAL STRENGTHS

- Strong analytical and problem-solving mindset with demonstrated ability to work across technical and business domains.
- Experienced in Agile product environments — sprint planning, backlog grooming, and iterative delivery.
- Excellent communication and stakeholder management skills with a track record of cross-functional collaboration.
- Deep domain expertise in recruitment, AI platforms, resource management, education, and workflow automation.
- Ability to bridge business requirements with technical implementation for scalable digital products.
